

Traditional Martial Arts Center

January Newsletter

Greetings everyone!

I wanted to take a moment and thank everyone for a wonderful kick off into the new year! I feel that 2019 is going to be a great year with so much to offer us all!

2018 brought us so many new additions! We formally became the Tenbukan Bujitsu Renmei Headquarters or “Hombu” in Japanese, we transformed our kids’ classes into so much more than it has ever been, we have gained so much support from our families and we have created our Dojo Parents support group! The things that have happened due to this support group is amazing to me! Things that I had only been able to dream about are happening! Things that were too much for my plate to plan. I cannot thank all of you enough for this!

With this newsletter we will be able to reach out to all of you more frequently and close that gap in communication. Please make sure to update your email in ZenPlanner and be sure to friend me on Facebook and "Like" the Traditional Martial Arts Center and the Yin Side to keep up with what is happening!

Your love and support of our school is so much appreciated by myself and Stacey! We can feel everyone's love for what we do and we love to see you sticking around to watch your kiddos during class.

Let's make 2019 the best year ever for our Dojo!
